

## 4-Way Wall Mountable HDMI Switcher

The EL-41WAD switcher allows the user to input four HDMI sources and switch between these sources to provide a single HDMI output to a display. This switcher can be controlled via the supplied remote control or by using the input switching button on the front of the device. The EL-41WAD has additional features of wall mountings and a system reset function that will reset the display, every 10 minutes, to a designated source.
