

Pioneers in AV Distribution

Who wants a tidy rack?

Introducing our NEW Flexi-Form - Installation Friendly High Speed HDMI Cables

Features:

- Full 1080p and deep colour resolutions
- 3D Compatible
- 99.999% Oxygen Free Copper
- Perfect for connecting rack mounted HDMI devices for neat rack dressing
- Available in lengths of:
 - 0.3m - HDMI-030
 - 0.5m - HDMI-050
 - 0.75m - HDMI-075

CYP Flexi-Form HDMI cables provide genuine innovation for the custom installer. The reinforced structure of Flexi-Form HDMI cables allows them to be manipulated into a desired shape which will be retained for the duration of an install. This new design allows installers the make tidiest of finishing touches to an AV installation, while also optimising the connection between sources in a rack.
